Arising from customer requests and my own requirements, I've produced a selection of etched items in 8 thou nickel silver, just literally one or a few off to see how they turn out (items marked * will be adjusted) and to see if there would be any wider interest from the membership. If extras are required they could be produced later in the year.

Side trims for the TiNY Windover Kingsway* and for restoring an old Westward Alexander M Type coach. A selection of 1950s Alexander single-deck grilles. Side fleetname trims* for TiNY's latest Willowbrook saloon. Willowbrook front "wings". Yorkshire Traction coach wings (full and half). Bournemouth Leyland PD3 grilles to scale and for the Corgi PD2 grille (brake grilles could be supplied separately). Bedford SB grille for Paragon's 1957 bus. Early Sentinel STC4 (Little Bus) grille. Ailsa grilles with or without badge. Foden triangle and diamond badges.

Two-part etches for Vinci rear wheeltrims for coaches and for Foden front wheels, primarily for my use in masters (one day) but would probably work OK as add-ons.

Replacement grille for a Worsley Works Welshpool & Llanfair WASP railcar (ex-MoD) in 009.

Arising from the need to shorten the PSG East Lancs Cityzen kit, and having failed to find an effective way of producing printed glazing in very small quantities, a set of etch brass frames has been prepared for both lengths. Availability will depend on combining production with other etching jobs and the cost is expected to be £5.00 per set plus 9" x 4" standard rate sae. Replacement windscreens to follow.
